September 2026 Months Supply of Inv.

Washington, Washington, D.C.

Single Family + Condo/Townhouse/Apt.

This graphic summarizes key statistics that describe the given month's inventory level and the percentage change in the last month and year.

Months of inventory is the number of months it will take a market to absorb the inventory that's available at the end of the month, based on the number of properties that typically go into pending each month. RPR calculates months of inventory by dividing the count of listings that were active on the last day of the month by a rolling 12-month average of newly pending listings.

Sold Public Records

Washington, Washington, D.C.

Single Family + Condo/Townhouse/Apt.

This graphic summarizes key statistics for properties that are sold each month. RPR uses a combination of dates in deed and assessment records to determine qualifying sale transactions each month. These statistics offer a complete view of everything that sold in a market area, whether it was listed in an MLS or not. Data is less accurate in non-disclosure states where some or all sale prices are not available through the public record. Non-disclosure states include Alaska, Idaho, Kansas, Louisiana, Mississippi, Missouri (some counties), Montana, New Mexico, North Dakota, Texas, Utah, and Wyoming. Note: Some counties, especially in rural areas, do not provide timely data updates.

From Data to Decisions

This report gives you a snapshot of the market.
But decisions aren't made from data alone.

Pricing, timing, preparation, and negotiation all shape the outcome.

The difference isn't luck. It's structure.

The right strategy depends on your property, your timing, and your priorities.

What outcome matters most to you?

Once that's clear, the next steps become much easier to map out.
